

BHANUTEJA VIVEKANANDAM

QA AUTOMATION ENGINEER

QA Automation Engineer with **4.6 years of experience** in designing and implementing automated test frameworks using tools like **Selenium WebDriver, Robot Framework, Pytest, and Python**. Proven ability to enhance software quality, reduce test cycles, and identify critical issues early in the development process. Skilled in integrating automated tests into CI/CD pipelines using **Jenkins and Git**, and collaborating with cross-functional teams to deliver high-quality software products. Passionate about improving test efficiency and ensuring seamless user experiences.

Work History

2021-01-21 QA automation Engineer

2025-6-30 **XACTO Services Pvt Ltd, BANGALORE.**

Job Summary

- Design, develop, and maintain automated test scripts for web/mobile applications using tools like **Selenium, Pytest, Robot Framework, and Appium**
- Execute functional, regression, integration, and performance tests to ensure software quality.
- Work closely with developers, product managers, and business analysts to understand requirements and test scenarios.
- Integrate automated tests into **CI/CD pipelines** using **Jenkins, GitLab, or GitHub Actions** for continuous testing.
- Identify, document, and track defects using tools like **JIRA or TestRail**.
- Optimize test cases to improve coverage and execution speed.
- Participate in code reviews, sprint planning, and agile ceremonies.
- Maintain test data and environment setups.
- Mentor junior team members and collaborate on test strategy improvements.
